SUMMARY

I help businesses save time, get more leads and work smarter with AI + Web + Ads. I am an AI Automation Engineer at the start of my career. I build simple, useful AI automations, clean websites and online campaigns. I learn fast, work carefully and keep every project tested and delivered on time. I am looking for a team where I can build real things, get feedback and grow every day.

WHAT I CAN DO FOR YOU

AI AUTOMATION & WORKFLOWS

- Build simple AI automations — lead capture, auto-replies, reminders, notifications
- Connect apps together — APIs, webhooks, Google Sheets, WhatsApp, Email
- Build simple AI chatbots, write clear prompts and keep AI output clean and usable

WEBSITE & APP DEVELOPMENT

- Build responsive websites and web apps with React, TypeScript and HTML/CSS
- Build simple APIs with FastAPI and Node.js
- Landing pages, business websites, dashboards and WordPress

ADS, SEO & GROWTH

- Set up Meta Ads (Facebook / Instagram) — targeting and creative testing
- SEO basics — on-page, keyword research, Google Business
- Simple funnels and landing pages to collect leads

CONTENT & OPERATIONS

- Content writing and clear, simple documentation
- Use automation to remove small, repetitive tasks

TECHNICAL SKILLS

Python · FastAPI · LangChain · OpenAI API · Gemini API · LLM Prompt Engineering · React · TypeScript · JavaScript

Node.js · REST APIs · Webhooks · HTML/CSS · WordPress · Meta Ads · SEO · Google Ads Basics · Content Writing

HOW I WORK

Understand the problem → **Plan** small → **Build** step by step → **Test** carefully → **Deliver** with notes → **Keep improving** with feedback.
