SUMMARY

I help businesses save time, get more leads and work smarter with AI + Web + Ads. I am an AI Automation Engineer with hands-on experience building real workflows, websites and campaigns through freelance projects, personal builds and continuous learning — from AI agents and business automation to modern web development, WordPress builds, Meta Ads and SEO growth. One engineer for AI automation, frontend, backend, WordPress and ads.

WHAT I CAN DO FOR YOU

AI AUTOMATION & WORKFLOWS

- Build intelligent workflows — lead capture, auto-replies, data validation, notifications
- Connect APIs, webhooks, CRMs, Sheets, WhatsApp, Email
- AI chatbots, prompt engineering, structured output, RAG basics

FRONTEND & BACKEND DEVELOPMENT

- Responsive websites & web apps in React, TypeScript, HTML/CSS
- REST APIs, FastAPI, Node.js, serverless backends, database integration
- Landing pages, business websites, dashboards, WordPress builds

ADS, SEO & GROWTH

- Meta Ads (Facebook / Instagram) — campaign setup, targeting, creative testing
- SEO — on-page, keyword research, technical basics, Google Business
- Funnels and landing pages built for lead generation

CONTENT & OPERATIONS

- Content writing, automation documentation, SOPs
- Reduce manual, repetitive work with smart automation
